Dear Mr Radkov,

On 3 December 2009 Tatziana Shaputzka was expelled from her studies at the Belarusian State University (BSU) in Minsk.

Before she took part in the Forum of the civil society of the European Union's Eastern Partnership from 16 till 17 November 2009 in Brussels.

Officially the reasons for Tatziana Shaputzka's removal from the list of registered students were her deficient study achievements, even though her marks were all together good.

In the opinion of many Belarusian NGOs the eviction of Tatziana Shaputzka was directly related to her participation in the forum in Brussels and her civil engagement in general.

Therefore I want to demand you to reregister Tatziana Shaputzka for her studies at the BSU immediately.

Please, feel responsible for the Human Rights of all the students in Belarus, so that they may enjoy their freedom of conscience and their rights of association and assembly without intimidation, prosecution and the fear to get expelled.

Respectfully
